

CALIFORNIA DEPARTMENT OF WATER RESOURCES

California Water Plan 2023

California Water Commission Briefing
January 19, 2022

California Water Plan Through the Years

Resource Extraction

Sustainable Resource Management

SWP Development

Integrated Water Management

Watershed Resilience & Sustainability

Climate Urgency & Racial Equity

The California Water Plan

- Understanding current and future conditions
- Understanding what Californians value
- Identifying challenges, risks, and opportunities
- Leadership, analysis, and local assistance
- Recommendations and tools to meet the moment

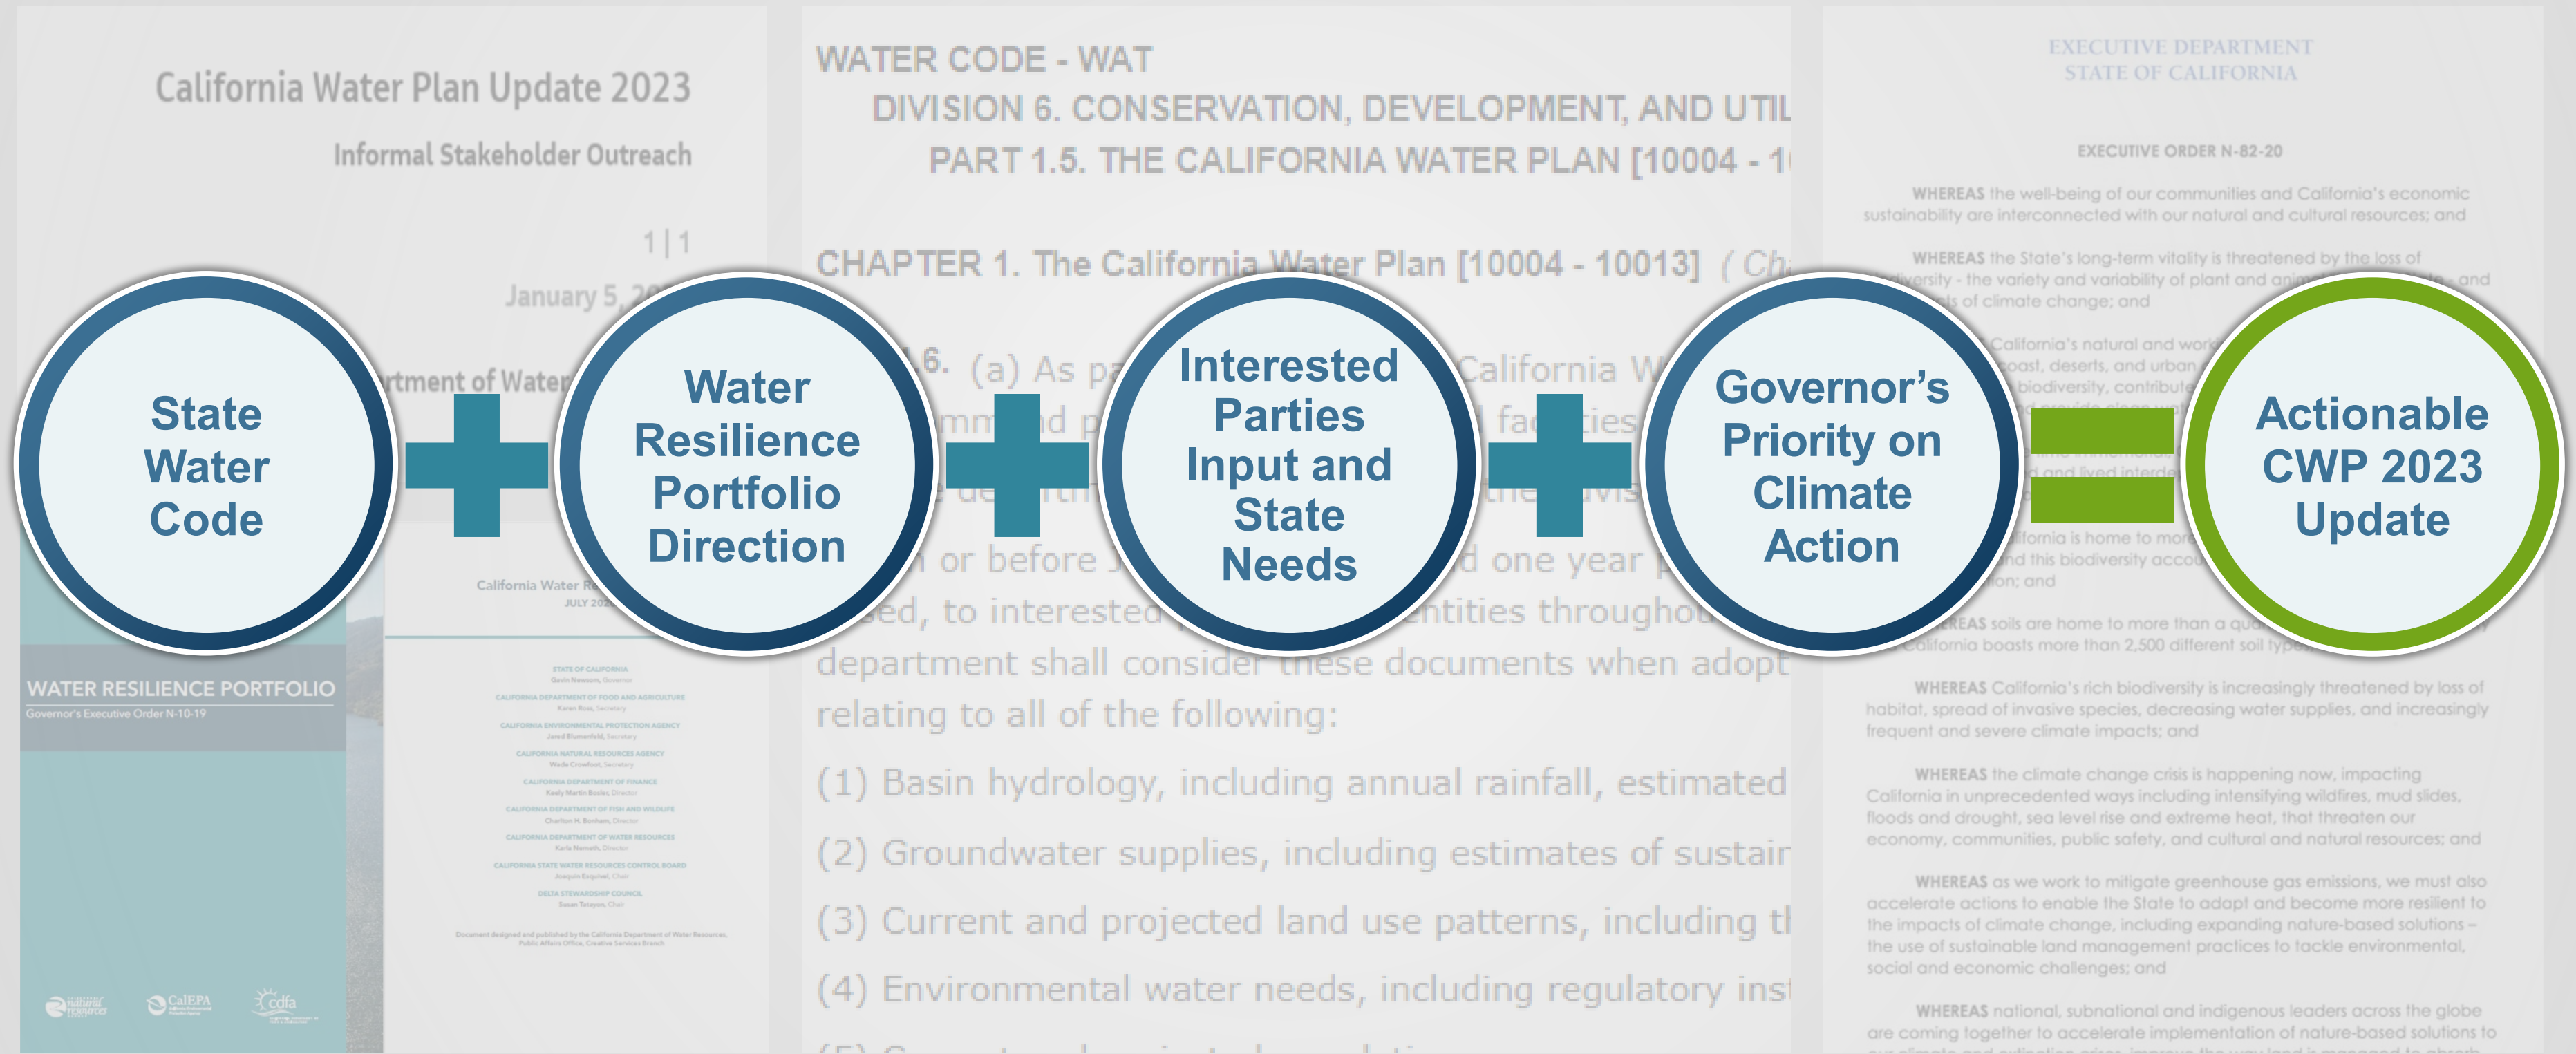

21st Century Water Plan Updates are Pioneering and Transformative

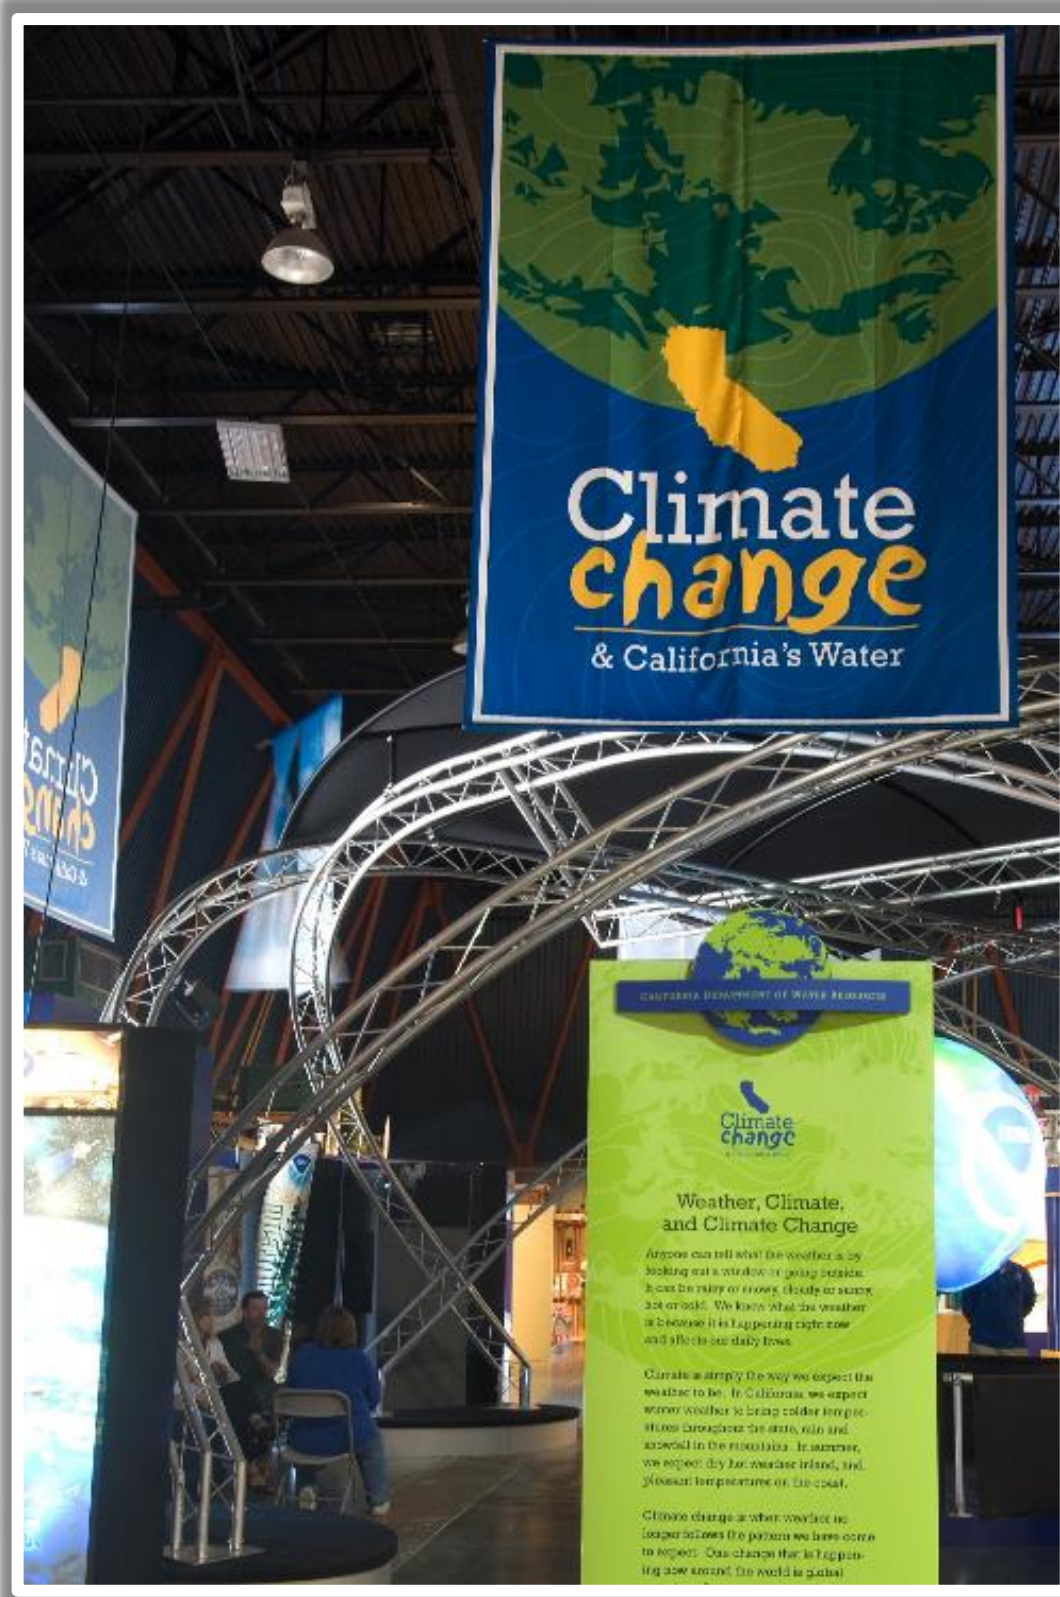

- Agency, Tribal, stakeholder and disadvantaged community participation
- Climate change impacts and adaptation
- Integrated watershed management
- Environmental stewardship and green infrastructure
- Water management for sustainability (Environment/Economy/Equity)
- Data, analysis, and Research and Development innovation roadmap
- Informing Legislation and General Obligation bonds

Context For Update 2023

Incorporating Water Resilience Portfolio Priorities

Water Supply, Quality, and Equity

Environmental Stewardship

Climate-Smart Agriculture

Disaster Preparedness and Response

California Water Plan Update 2023

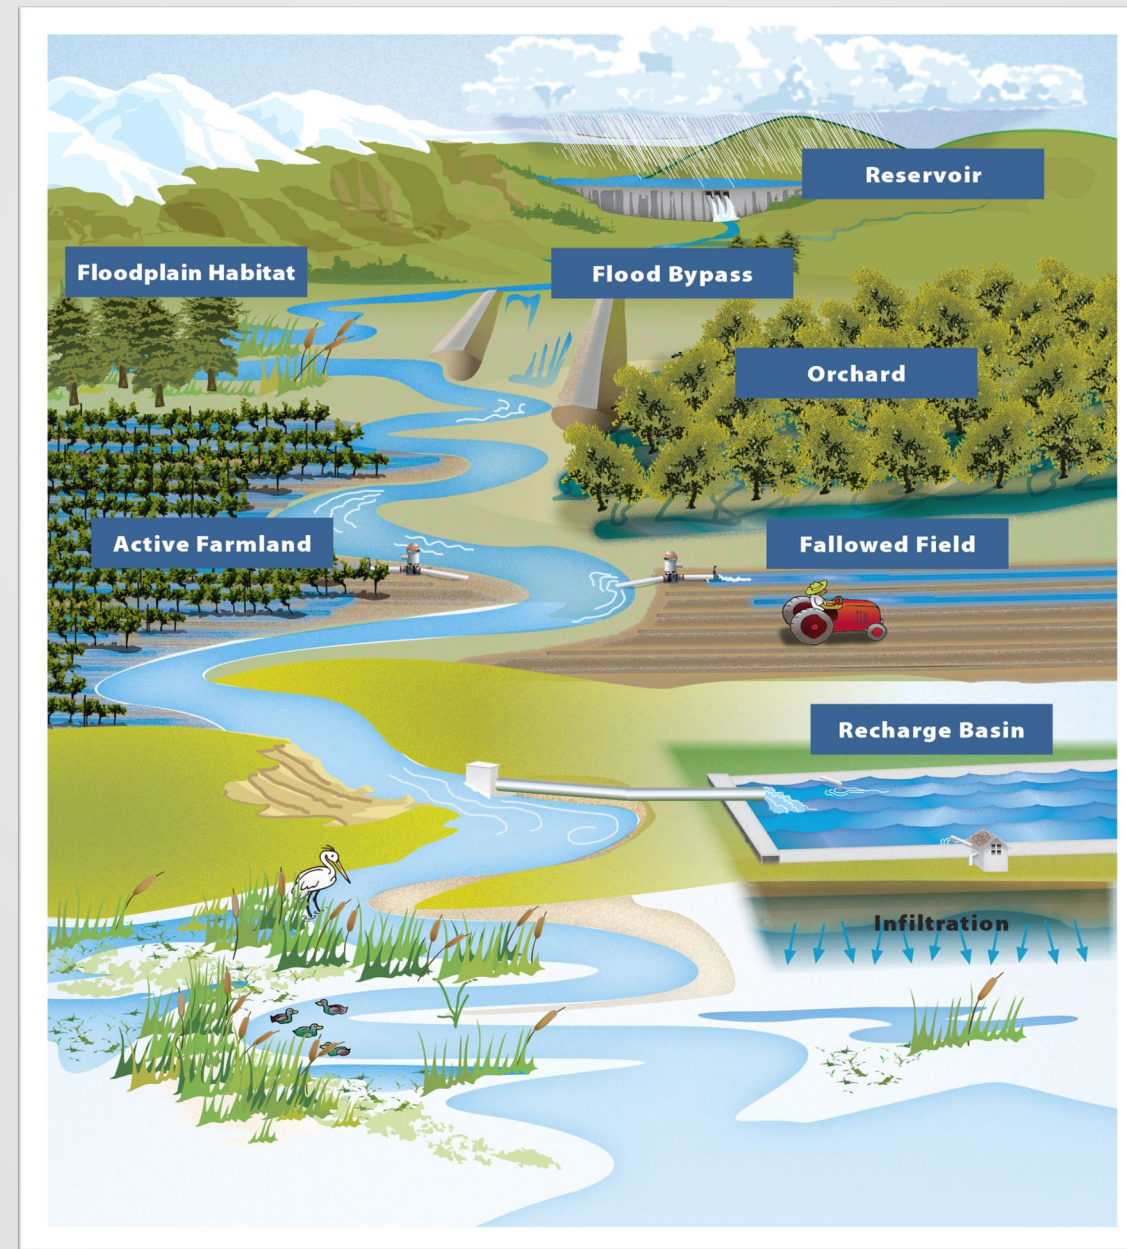

Advancing Themes of the Water Resilience Portfolio

Through State Agency Alignment AND Enhanced Watershed-scale Networks

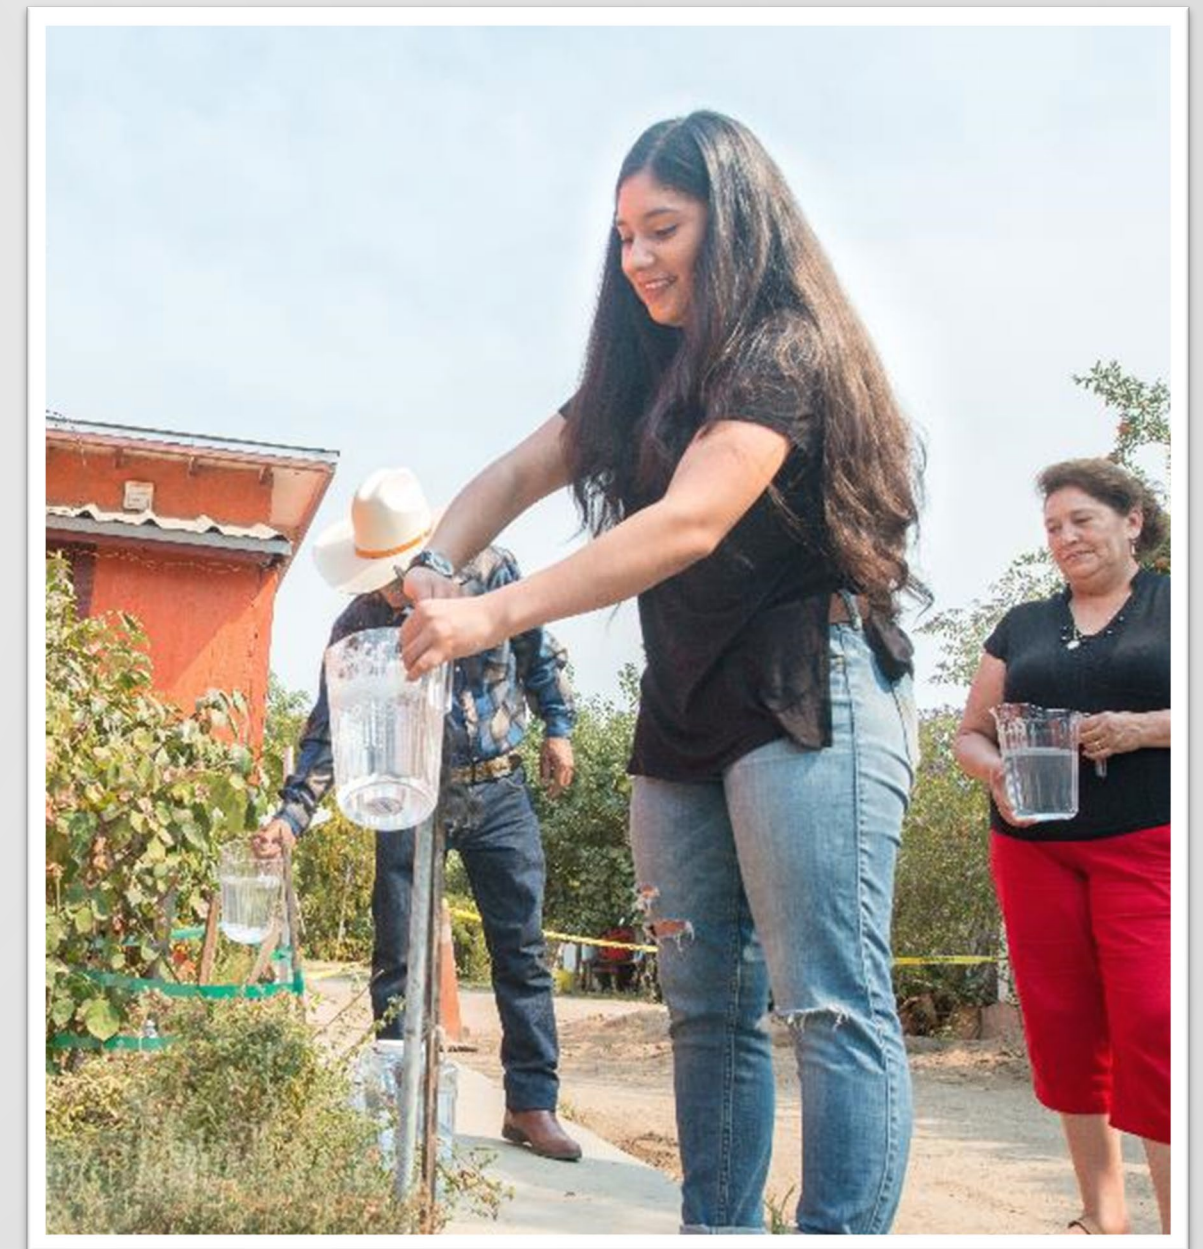

Climate Change Science

Watershed Resilience

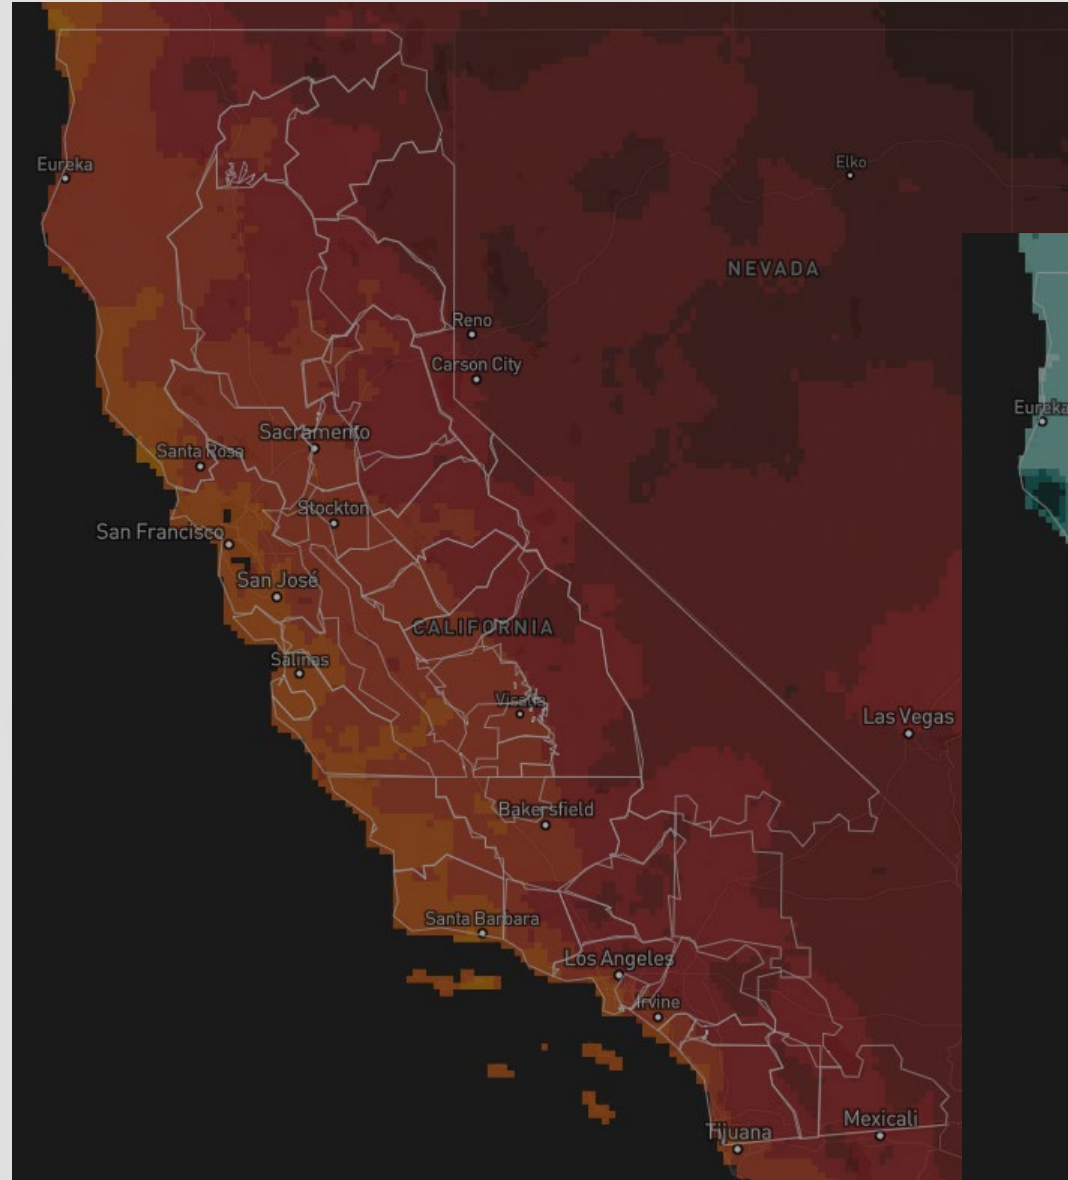

Equity in Water Management

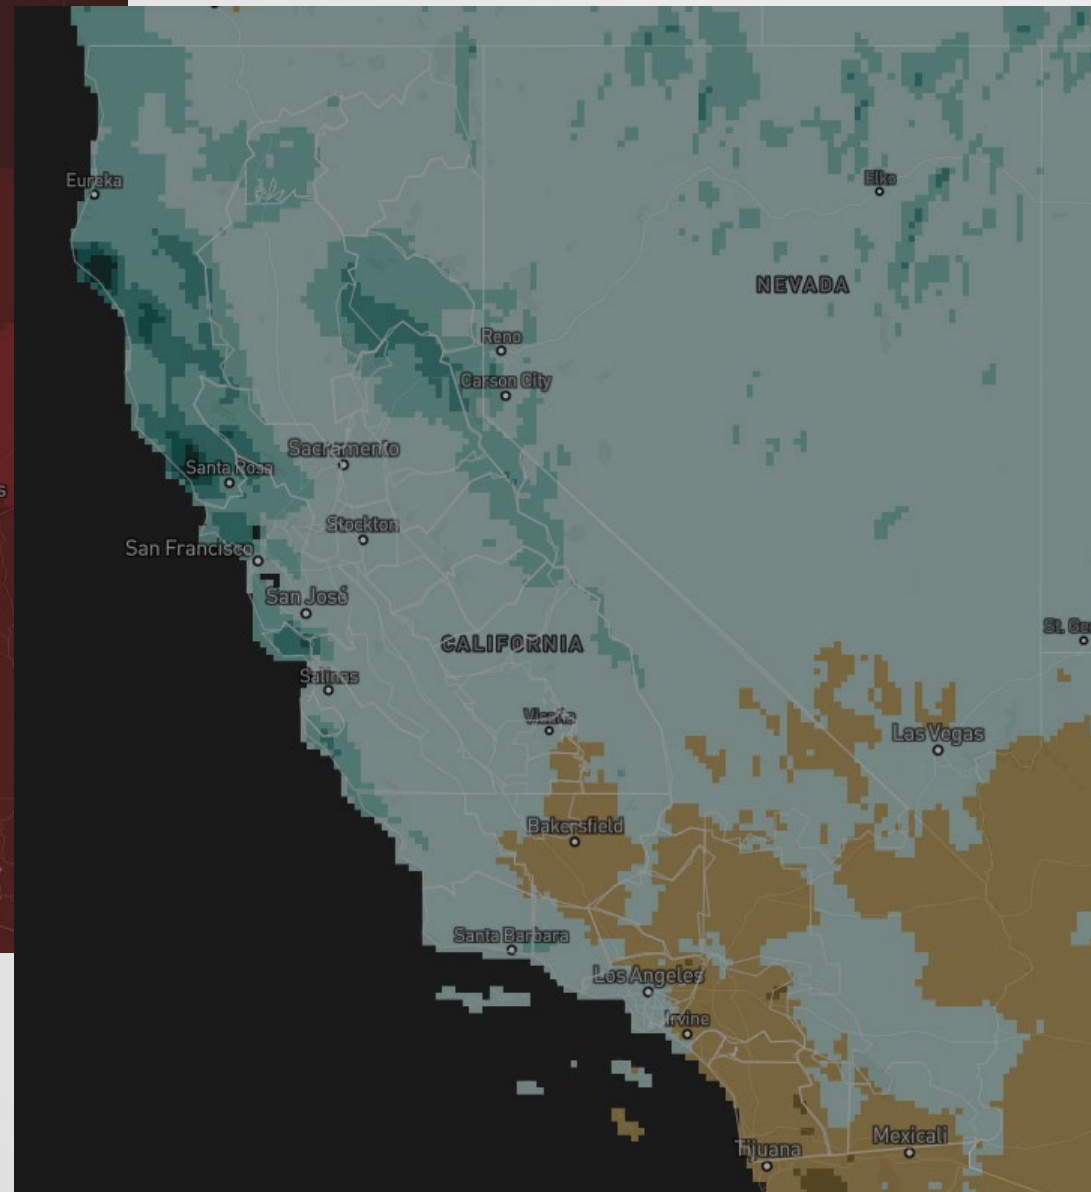

Improving Understanding of Climate Vulnerabilities

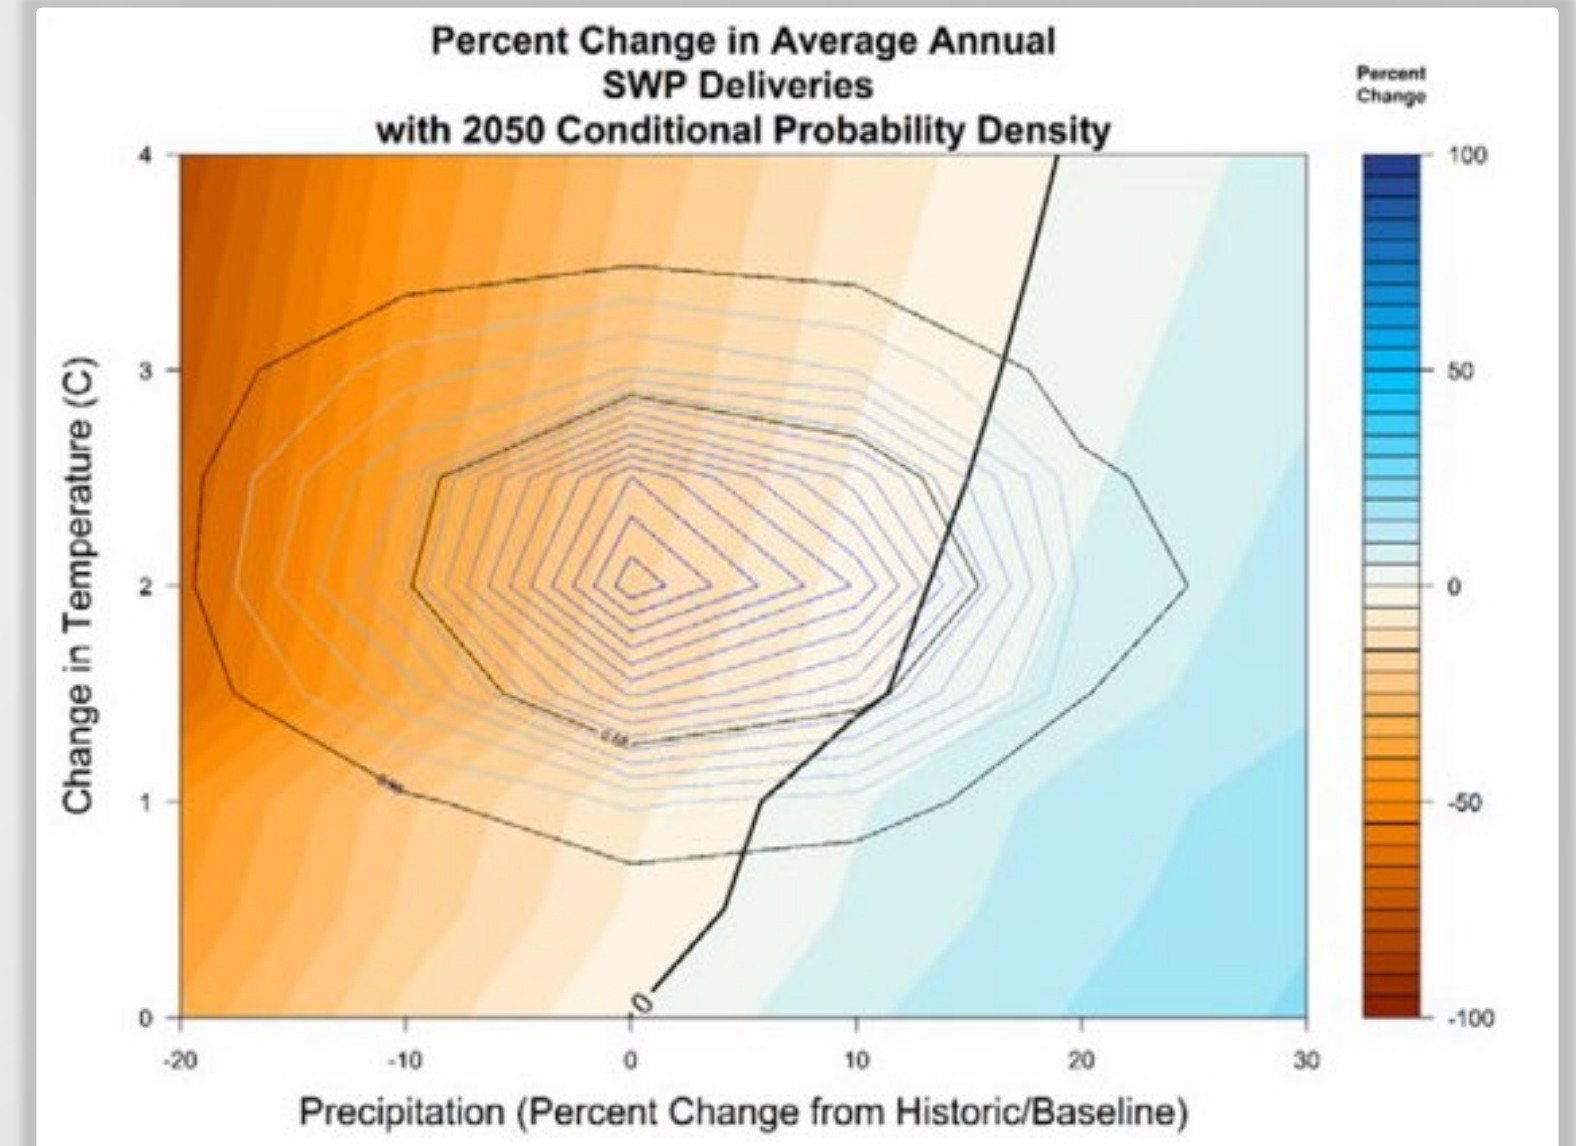

Warming is Accelerating

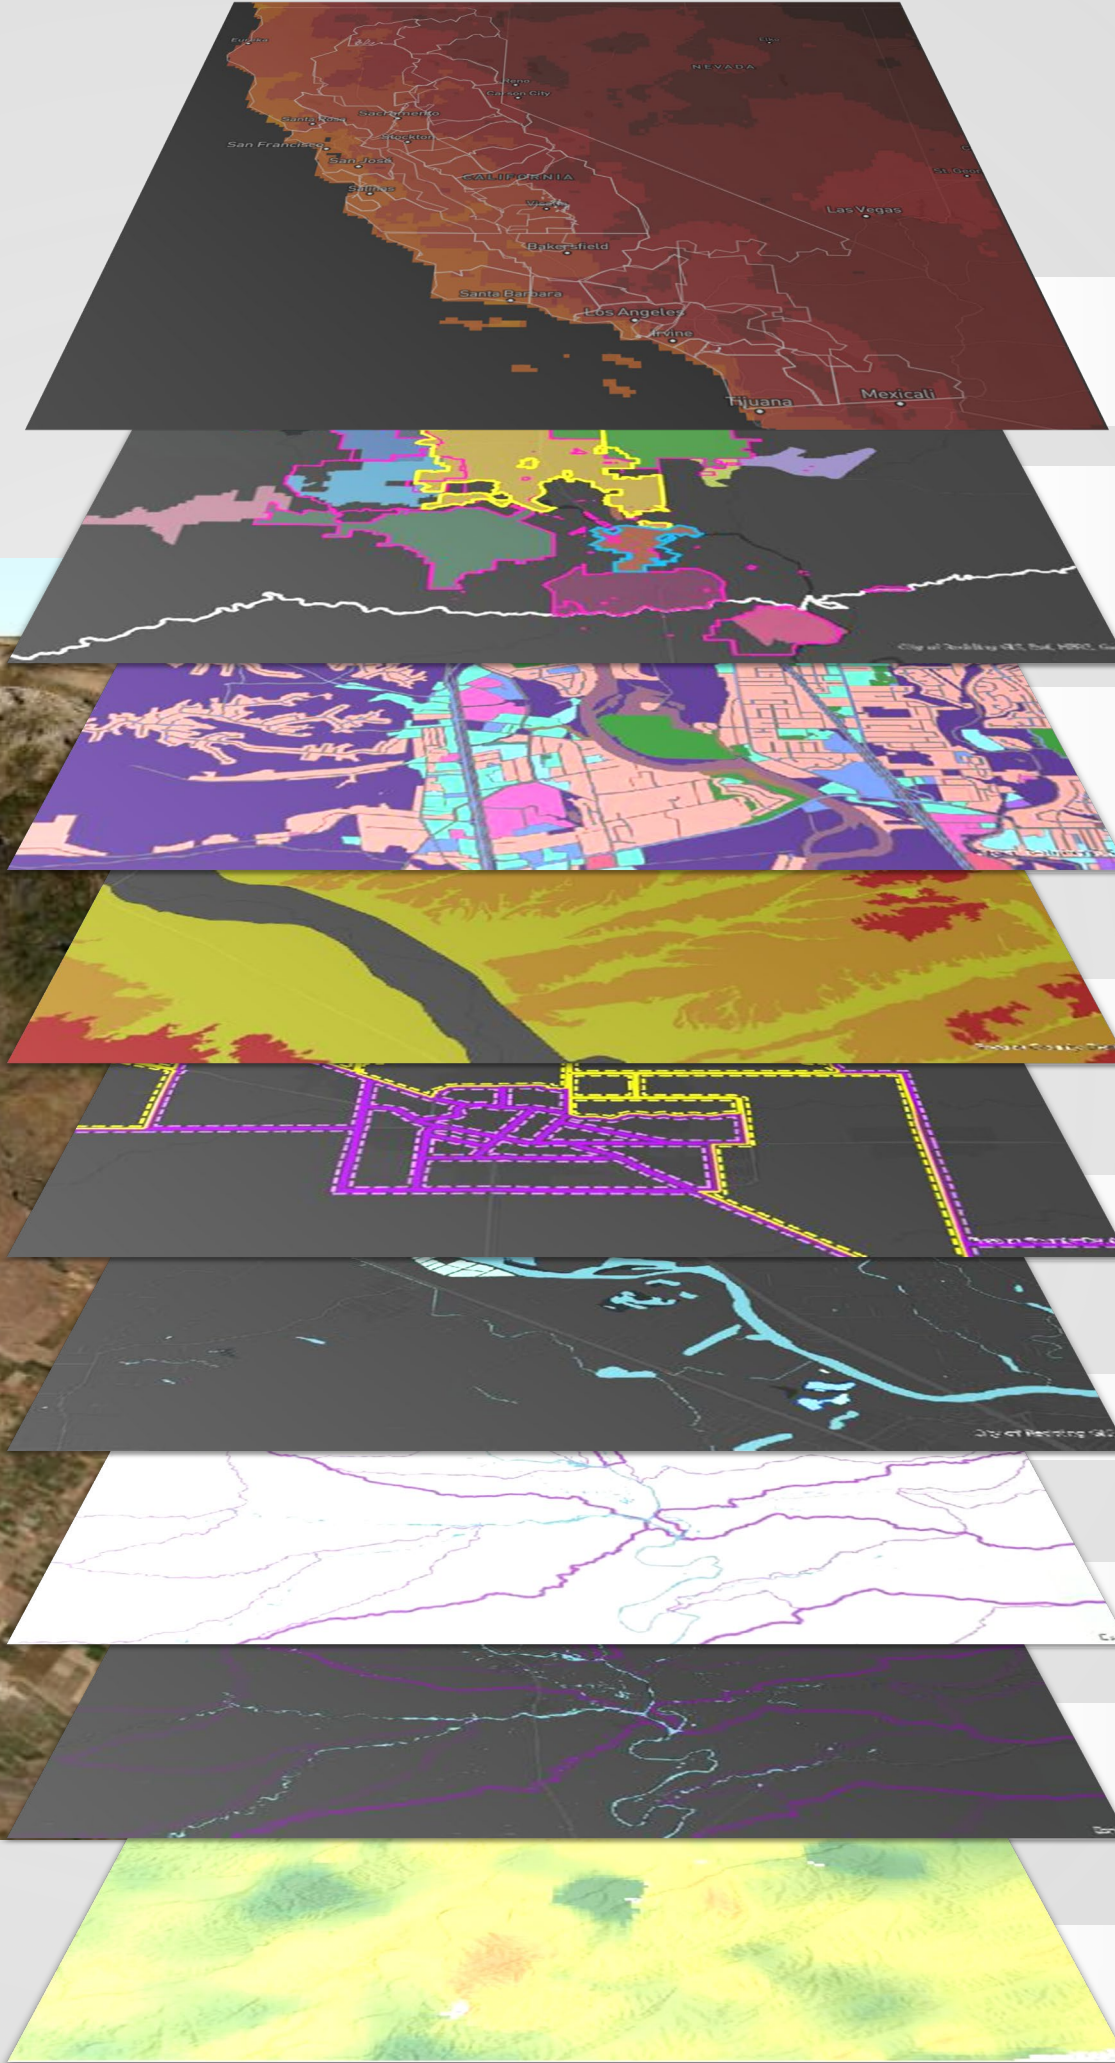

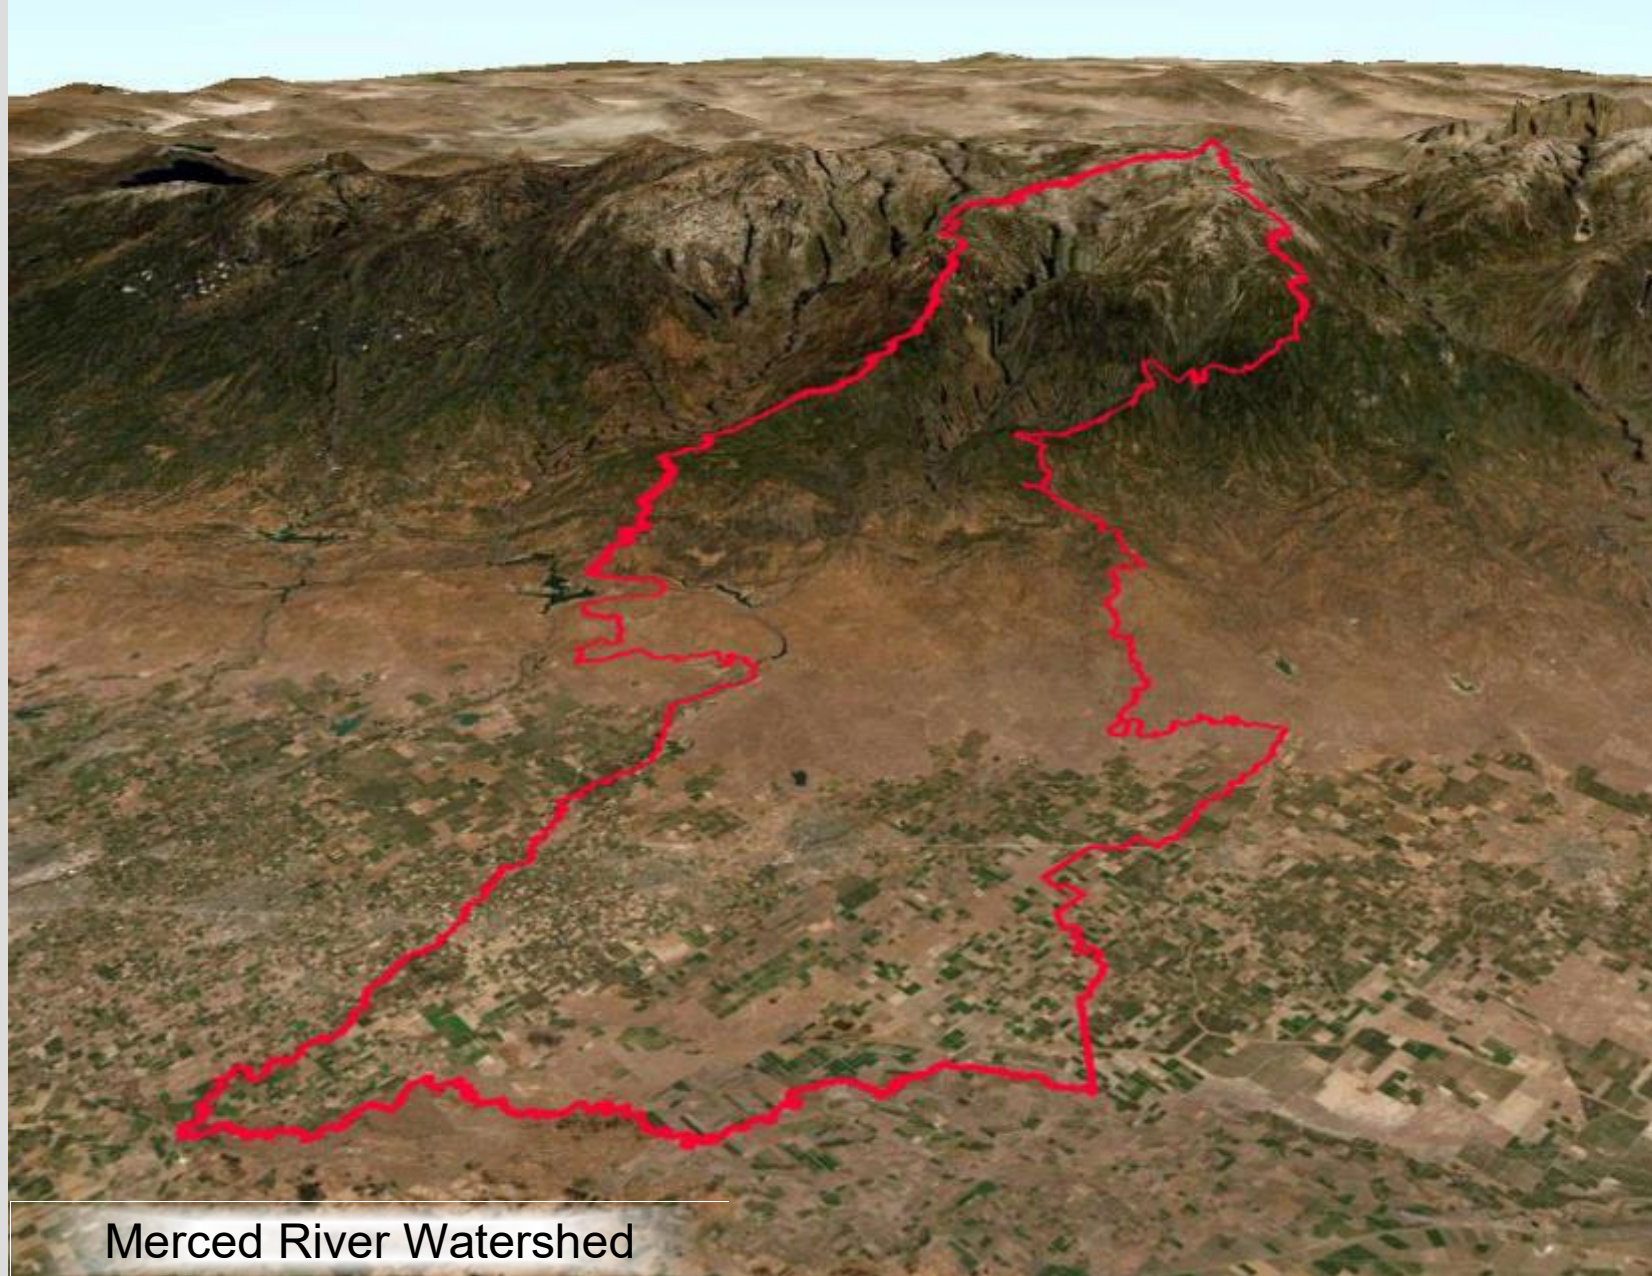

Projections of Precipitation Changes are Varied

Robust Analytical Approaches and Tools to Understand Vulnerabilities

Watershed Resilience Planning through Networks

Climate Change Data

Local, State, Federal Governance and Jurisdictions

Demographics / Vulnerable communities

Fire Risk

Land Use

Surface Water

Water Quality

Groundwater recharge zones

Ecosystem opportunities

Networks

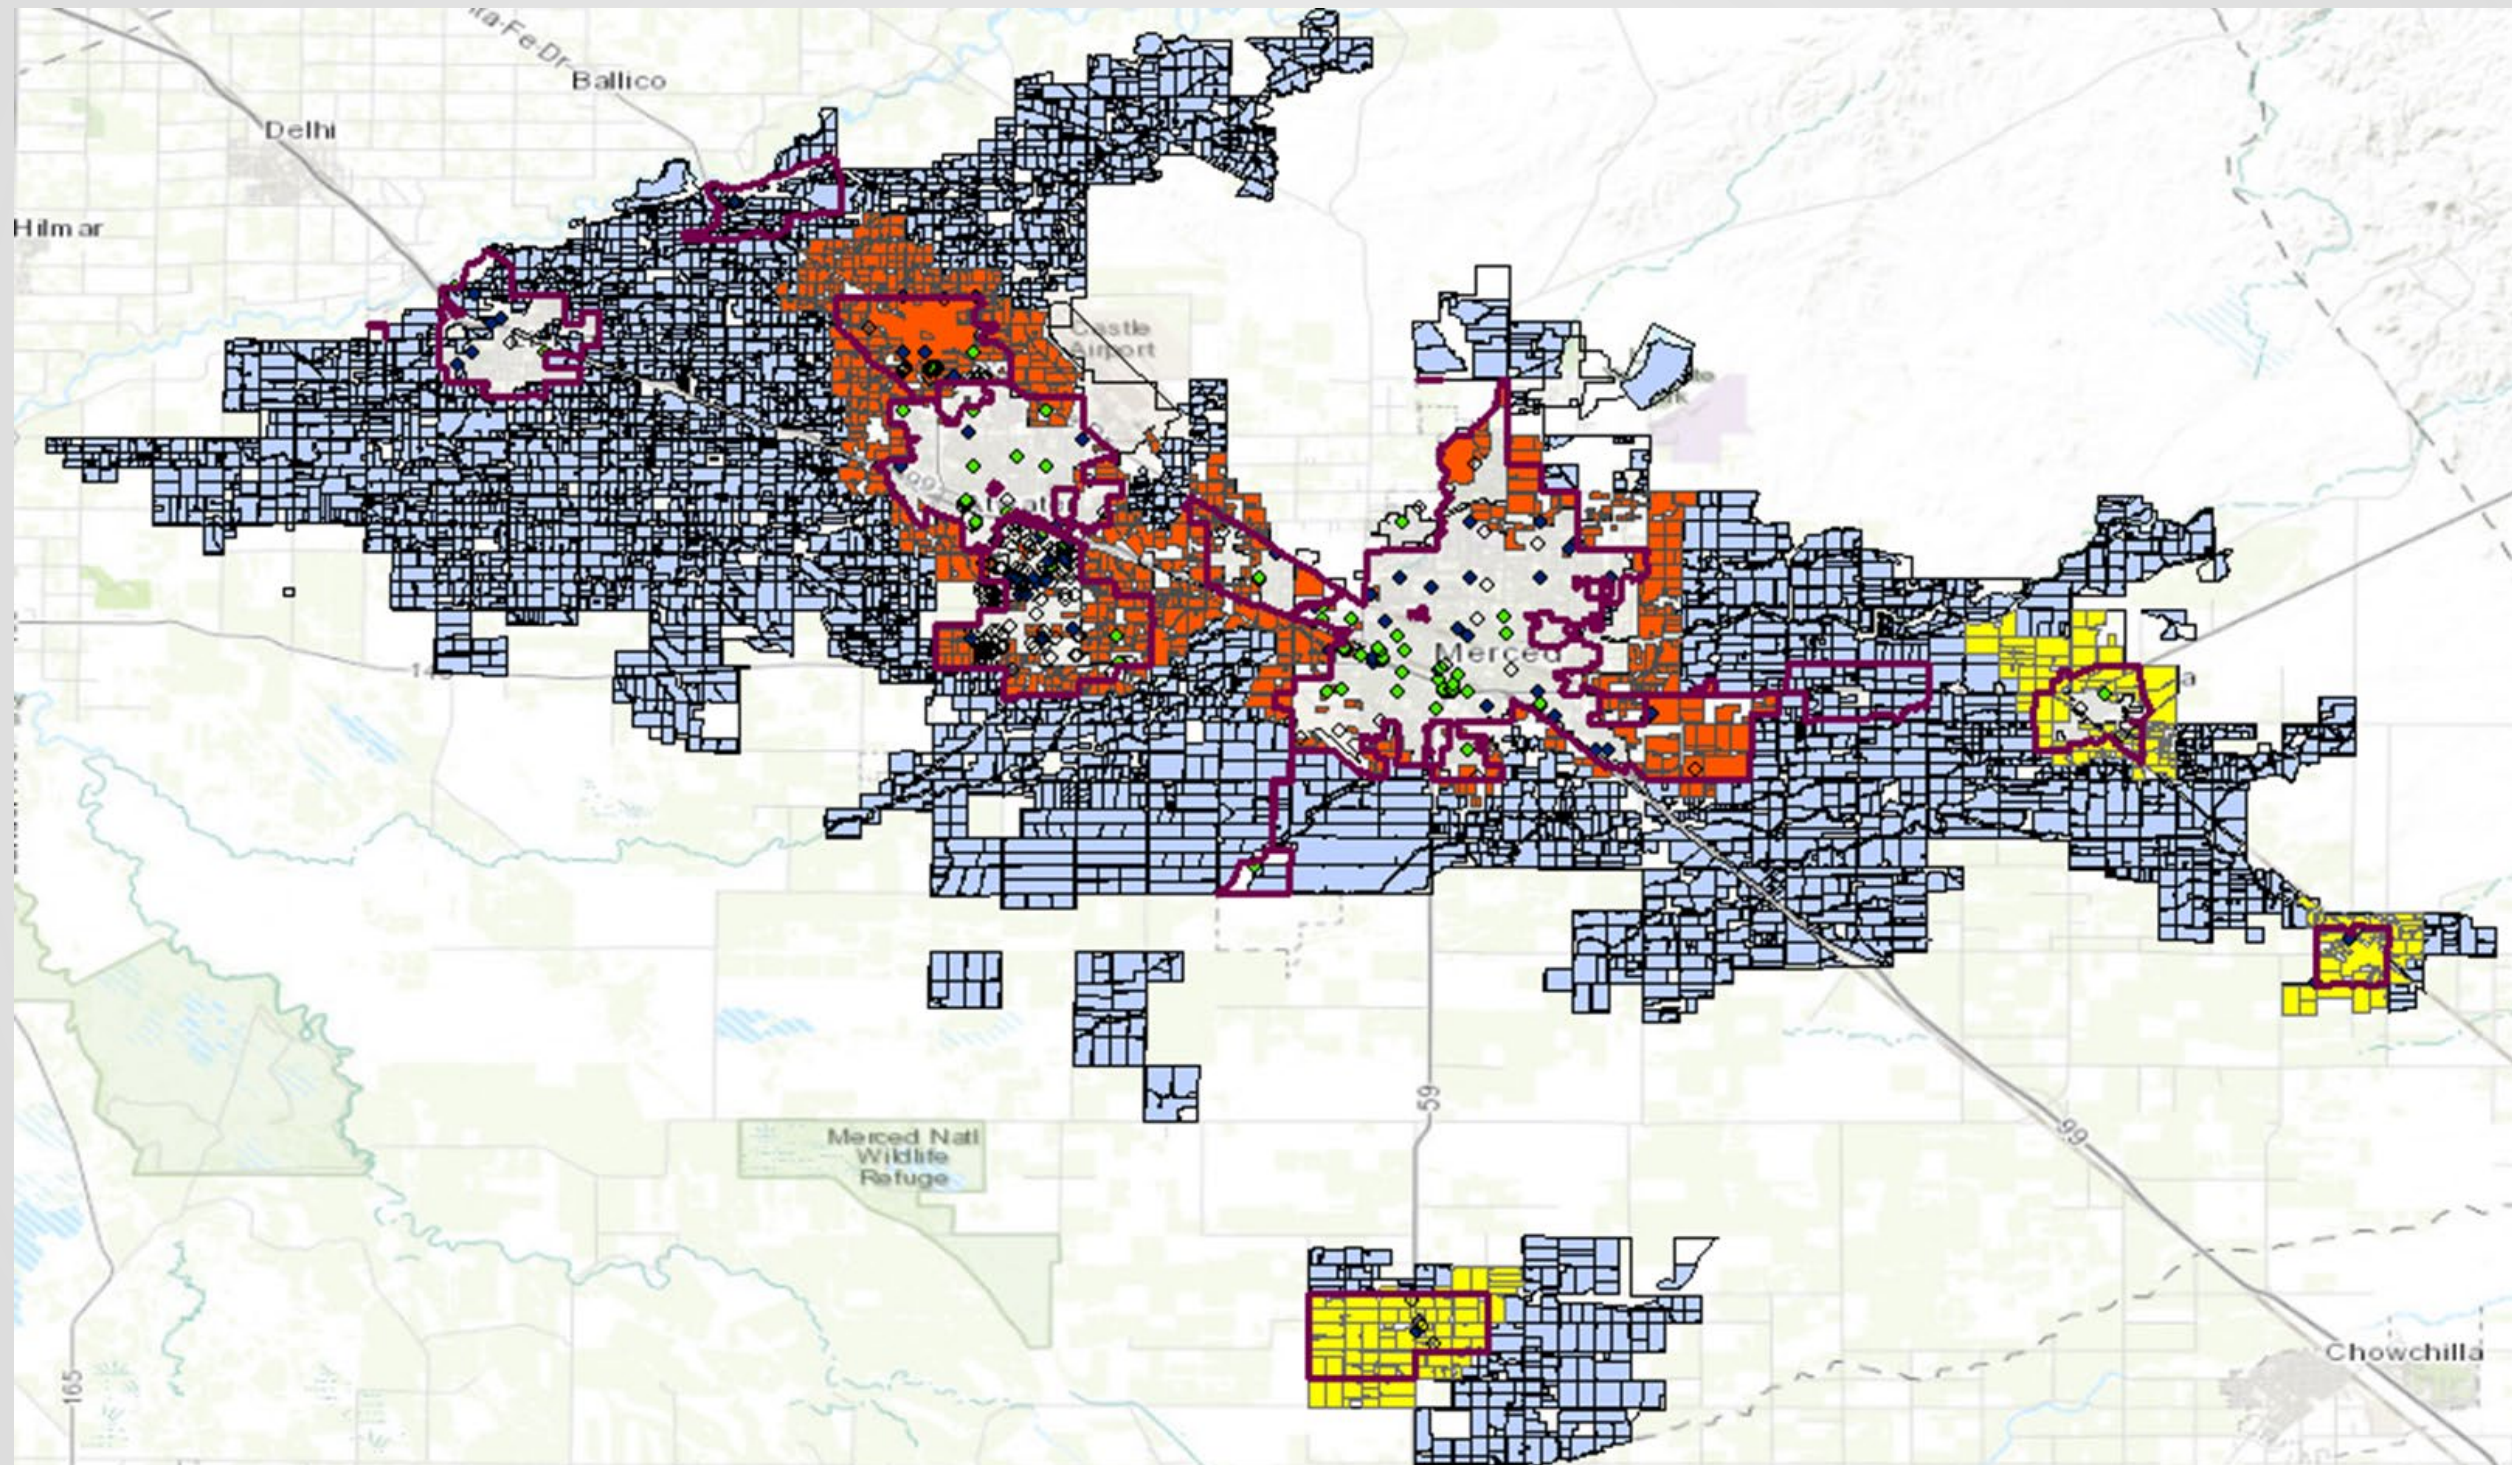

Improving Equity in Water Management is a major theme for Water Plan Update 2023

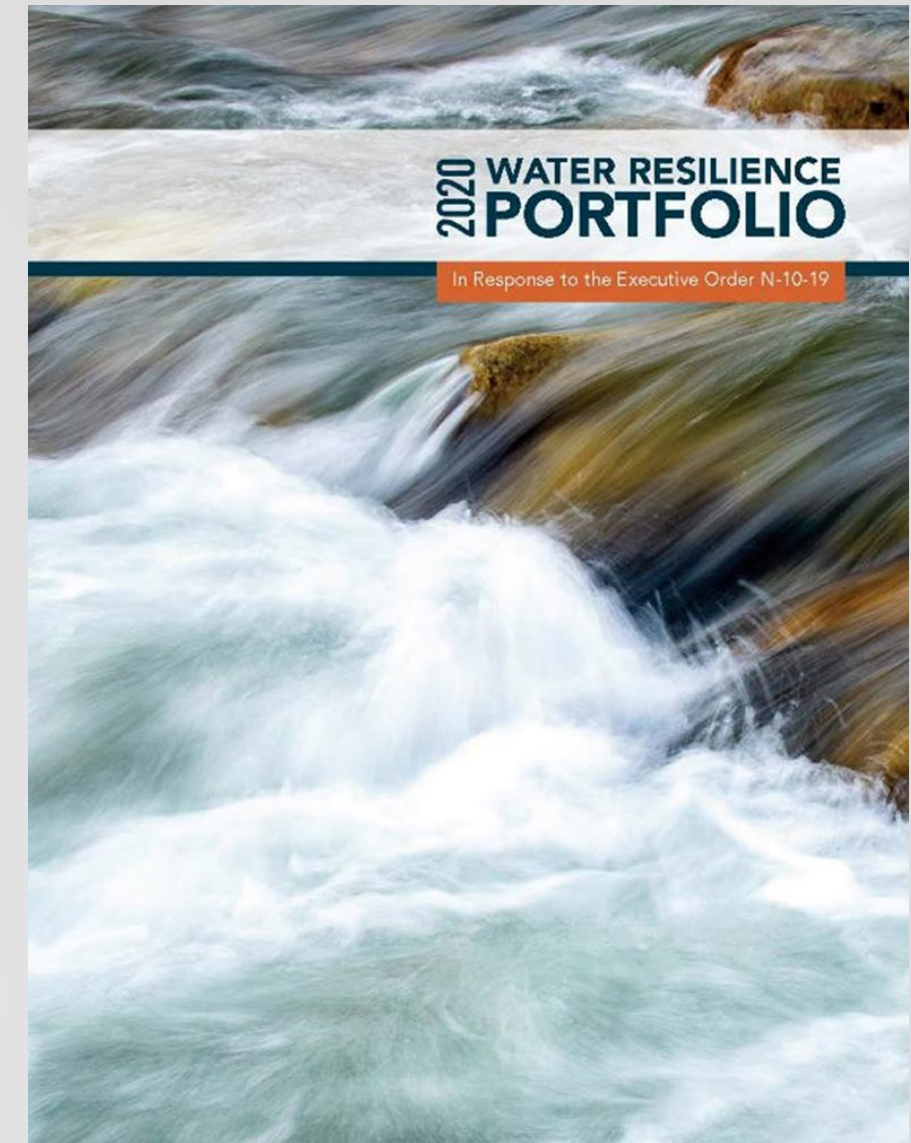

Connecting the Themes

Climate-Focused Watershed Management can Support California's Most Vulnerable Communities

The Communication and Engagement Plan is designed to Align and Build Support for Update 2023

- Water Resilience Portfolio Principals
- Core State Agency Team
- State and Federal Agency Networks
- Tribal Advisory Committee
- Policy Advisory Committee
- Topic and place-based workshops

California Water Plan 2023 – Update Schedule

Accessing California Water Plan Information

❖ [Visit the Web Portal](#)

❖ [Subscribe to Water Plan eNews](#)

The screenshot shows the California Department of Water Resources website. The navigation bar includes links for Water Basics, What We Do, Programs, Work with Us, News, Library, and Search. The main content area is titled 'Update 2023' and features a large image of a river landscape. Below the image, there is a section for 'Intended Outcomes of Update 2023' with a bulleted list: Promote Climate Change Adaptation, Support California's Regions, and Strengthen Water Equity. A 'Contact Us' section provides an email address (cwpcom@water.ca.gov) and a 'Subscribe to Water Plan eNews' link. A 'Tags' section includes buttons for California Water Plan, Groundwater Management, Integrated Regional, Climate Change, Tribal, and Sustainability. At the bottom, a diagram shows the process flow: State Water Code + Water Resilience Portfolio Direction + Interested Parties Input and State Needs + Governor's Priority on Climate Action = Actionable CWP 2023 Update.

The screenshot shows the 'California Water Plan eNews' newsletter. The header features a circular diagram with categories: Ecosystem, Flood, Groundwater, Sustainability, Water Quality, Water Supply Reliability, and People and Water. The main title is 'CALIFORNIA WATER PLAN eNEWS' with a sub-header 'Wednesday Update Jan. 5, 2022'. The newsletter content includes several articles: 'Update 2023 brochure gives first look at plan's outcomes and outreach', 'Update 2023 on agenda of next California Water Commission meeting', 'UPWARD California provides new resource for State water rights data', 'Groundwater recharge laws to be discussed during noontime lecture next week', 'Webinar series on water loss for small systems to begin this month', and 'Water Use Efficiency Program to hold meeting on CII performance recommendations'. The EFCN logo is visible in the bottom right corner.
