**Cc:** Alvarado, Teresa@CWC  
**Subject:** I support your new "Pacheco Dam Project"

Please note that I fully support your efforts to move forward on this project. I understand those who complain list many reasons to object, and I want you to know I support all the efforts you are doing to help my community get water. You have many projects in the works, and I trust you to sort them out and help us get water.

I understand projects may have budget overruns, may have adverse environmental impacts, and may impact citizens via eminent domain. I still support your efforts.

Thank you,  
-David Robbins
