Ms. Teresa Alvarado, Chair
California Water Commission
P.O. Box 942836
Sacramento, CA 94236

Subject: Submittal of the Water Storage Investment Program Quarterly Report No. 10 for the Los Vaqueros Reservoir Expansion Project

Dear Chair Alvarado:

Contra Costa Water District is pleased to submit Quarterly Report No. 10 for the subject project. The report provides an update on project status following the October 1, 2020 to December 31, 2020 quarter.

If you have any questions or require additional information please contact me at (925) 688-8018 or mpatil@ccwater.com, or Maggie Dutton at (925) 688-8132 or mdutton@ccwater.com.

Sincerely,

A handwritten signature in purple ink that reads "Marguerite Patil".

Status Update

Provide a status update for the following, as applicable:

- Labor Compliance
- Urban Water Management Plans
- Agricultural Water Management Plans
- Groundwater Management or Groundwater Sustainability Plans
- Potential effect of other conditionally eligible projects on the applicant's public benefits

Updates to information provided in the Initial Report or prior Quarterly Reports are only needed when a significant change has occurred. The Commission may request submittal of updated information prior to executing a funding agreement.

Labor compliance program is expected to begin prior to qualifying work (construction) in approximately 2022. CCWD's 2015 Urban Water Management Plan was submitted and approved by DWR. CCWD's 2020 Urban Water Management Plan is under development. CCWD's service area includes a small amount of agricultural water customers, but CCWD is not required to complete an AWMP based on the requirements described in SB X7-7. CCWD is a participant in the GSP development of the East Contra Costa Subbasin; the GSP development is in progress and is being funded by a grant from DWR under the Sustainable Groundwater Planning Grant Program.
