

Moving to Action Network Development
FOCUS GROUP SCOPING AND PLANNING MEETING

Wednesday, May 12, 2021, 9AM - 12PM

Zoom registration is required

Workshop Purpose: Convene an engaged focus group to explore the potential for the formation of a CA based network - initial scoping and planning.

WORKSHOP AGENDA

9:00 Welcome and Introductions

Orit Kalman, CSUS, Center for Consensus and Collaboration Program

Lindsay Correa, Regional Climate Change Specialist, California Department of Water

Resources

John Andrew, Assistant Deputy Director, California Department of Water Resources

9:20 The Impetus for a Moving to Action Network

Romain Maendly, Senior Engineer, California Department of Water Resources

Objective: Presentation on survey summary results, future directions discussion document, and discussion questions to gain focused feedback to guide next steps

9:40 The Role of Networks in Advancing Climate Change Science

Objective: Validate mission and refine objectives and a vision of success for the Moving to Action network initiative.

10:00 Stretch Break

10:05 What can the Network Accomplish? – Breakout Session

Objective: Promote and enable open discussion about specific interests and objectives for advancing a network of climate scientists and water management practitioners to guide future directions for the Moving to Action network.

Compiling a list of early actions that can accelerate the inclusion of climate change analysis in decision-making.

Collaborating on pilot projects to inform and refine methods to incorporate climate change in decision-making.

Partnering with DWR to organize a workshop every three years, similar to the format of the “Planning for Change” event.

11:20 Short Break

11:25 What Needs to Happen Next? – Breakout report out

Objective: Gain agreement on a short list of next steps and timeline, key participants, and roles moving forward.

11:50 Reflections and Wrap Up

12:00 Adjourn
