

DWR Architectural & Engineering (A&E) Contracts Look Ahead Report

Last Updated: June 4, 2024

Division	Request for Qualification Number	Estimated Quarter of Advertisement	Estimated Contract Term	Description of Work	A&E Category/ Service Type	Estimated Contract Value
Central Valley Flood Protection Board	A&E 254	2nd Quarter 2024	3+1+1	Contractor will provide Central Valley Flood Protection Board (CVFPP) with engineering, environmental, strategic, operational planning, and program and project management, to support regulatory operations, regulation updates, strategic and operational planning, public outreach and engagement, and logistics and management related to managing flood risk in areas of 1) preserving the integrity and function of the Adopted Plan of Flood Control, 2) integrating climate resilience, multi-benefit programs, project planning and ecosystem restoration, and groundwater recharge projects with flood-risk-reduction projects, and 3) supporting the reoccurring 5-year update to the CVFPP.	Engineering, Regulatory, Planning, and Environmental Services	\$1,000,000 to \$5,000,000
Division of Engineering	10198930	2nd Quarter 2024	3+1+1	The Department is in need of qualified personnel in support of the Division of Engineering Project Management Branch. The Contractor will provide DWR with expert-level Project Management support for architectural, engineering, and environmental projects and programs on an as needed basis. Project types can range from studies and analyses to multi-year heavy civil design. Duties will include project initiation, planning, executing, monitoring, controlling and closeout.	Engineering Project Management Support	\$1,000,000 to \$5,000,000
Division of Planning	A&E 258	2nd Quarter 2024	3+1+1	The Department is in need of qualified personnel in support of the Project Management and Communications section of the Project Services Office (PSO) Division of Planning. Contractor will provide project management services on an as needed basis as directed by DWR and provide expert-level project and program management (PPM) assistance, guidance, and support for DWR projects and programs.	Engineering and Environmental Project Management Services	\$1,000,000 to \$5,000,000
Division of Engineering	A&E 261	2nd Quarter 2024	3+1+1	The Contractor will provide expert technical environmental compliance advice and consultation and technical environmental support for DWR's projects in Northern California.	Environmental Services	\$5,000,000 to \$10,000,000

- 1) Estimated Advertisements are subject to change as contracts are developed.
- 2) Services listed have not been confirmed to be services that can be acquired under GC§ 4525.
- 3) Send all questions regarding this report to DWR-aequestions@water.ca.gov.
- 4) Discussions with DWR staff about the contents of this report are not permitted.
- 5) All contracts are subject to [BL 23-27](#).

DWR Architectural & Engineering (A&E) Contracts Look Ahead Report

Last Updated: June 4, 2024

Division	Request for Qualification Number	Estimated Quarter of Advertisement	Estimated Contract Term	Description of Work	A&E Category/ Service Type	Estimated Contract Value
Division of Operations and Maintenance	A&E 262	2nd Quarter 2024	3+1+1	Contractor will provide program and project management assistance with an emphasis in civil, mechanical, electrical, dam safety, and fire systems projects, and provide guidance and support for project manager maturity that develops and establishes documented policies and procedures to ensure consistent implementation of standardized project management. The Division of Operations and Maintenance Project Management Office (PMO) goal is to systematically create a culture of standardized, Project Management Institute (PMI) recognized, project management principles for all projects and to move toward a policy of uniform utilization of these standards and procedures. Contractor must be well versed and experienced in civil, mechanical, electrical, dam safety and fire systems projects. Project/construction management experience must be directly related to hydroelectric generation and pumping plants, water conveyance systems such as large pipes and aqueducts, and dam safety procedures and protocols	Engineering Project Management Support	\$5,000,000 to \$10,000,000
Division of Operations and Maintenance	10191137	Currently advertising, SOQs due June 11, 2024	5 years	The Contractor will provide on-call, as needed, Construction Project Management Services (CPMS) in the areas of construction management and contract administration, inspection, and other CPMS related engineering and management services for the Fire Modernization Program at State Water Project (SWP) Facilities.	Construction Project Management Services	\$20,000,000 to \$30,000,000
Division of Operations and Maintenance	TBD	2nd Quarter 2024	3+1+1	Contractor will provide engineering and engineering geologic services on an as-needed basis for the condition assessment, review, evaluation, analysis, management, and inspection of infrastructure associated with the State Water Project (SWP). Contractor will also provide services related to the safety and performance for infrastructure and structures owned, operated, or maintained by Operations and Maintenance (O&M). The services involve a broad range of disciplines including civil engineering, water resources engineering, structural engineering, condition assessment, land surveying, project management, analysis and design, field inspection and exploration, environmental, engineering geology, geotechnical engineering, corrosion engineering, welding inspection, emergency management, geographic information system development, and relational database management.	Engineering Services	\$5,000,000 to \$10,000,000
