Meeting Location: California Natural Resources Agency, 715 P St, Sacramento, Room 06-212 (sixth floor)

Meeting Objective: Finalize the focus area problem statement and begin brainstorming recommendations to present at the Spring 2025 DRIP Collaborative meeting.

Agenda

- 3:30PM **Welcome and Vision Setting**
Review meeting purpose to finalize problem statement and begin brainstorming potential recommendations. Discuss the workgroup members' vision for this focus area, answering the question:
- In five years from now, land use planning for drought resilience has been addressed. What is one thing that was accomplished to get us there?
- 3:40PM **Process Review**
Revisit anticipated timeline for developing the problem statement and recommendations.
- 3:45PM **Problem Statement Definition**
Review draft problem statement and comments provided at the October 2024 DRIP Collaborative meeting. Discuss related key challenges and the connection to the DRIP Collaborative purpose and finalize the problem statement.
- 4:15PM **Recommendation Brainstorming**
Revisit the challenges identified in the problem statement and brainstorm potential opportunities for improvements and ways to address the identified challenge.
- 4:55PM **Public Comment**
- 5:00PM **Adjourn**

Background

The Department of Water Resources (DWR) established a standing drought and water shortage interagency task force in coordination with the State Water Board and other relevant state agencies to facilitate proactive state planning and coordination for pre-drought planning,

emergency response, and post-drought management, consistent with [Senate Bill 552](#) (Chaptered in 2021). The Task Force, called the Drought Resilience Interagency and Partners Collaborative (DRIP Collaborative), will serve as a public forum with state and non-state agency members to advance our drought strategies and continue building resilience to the increasingly arid conditions California faces.
