

Versions of Text Considered for CVP Water Suppliers in the Ag Water Measurement Regulation

April 22, 2011 Draft Regulation

The following measurement option was included for Agricultural Water Suppliers subject to either the Central Valley Project Improvement Act (CVPIA) (Public Law 102-575) or the Reclamation Reform Act (RRA) of 1982, or both.

Measurement Option (c) - An agricultural water supplier subject to CVPIA or RRA shall be deemed in compliance with this article if all irrigation water delivered by that water supplier to each customer is delivered through measurement devices that meet the United States Bureau of Reclamation accuracy standards defined in Reclamation's Conservation and Efficiency Criteria Standards of 2008 or future amendments that meet the criteria of options 597.3(a) or 597.3(b) of this article.

May 3, 2011 Draft Regulation

Measurement Option (c) was removed as requested by the CVP water suppliers and NRDC.

May 4, 2011 Ag Stakeholder Committee meeting proposal

At the May 4 ASC meeting, CVP water suppliers proposed to include Option (c) with the following change:

Measurement Option (c) - An agricultural water supplier subject to CVPIA or RRA shall be deemed in compliance with this article if all irrigation water delivered by that water supplier to each customer is delivered through measurement devices that meet the United States Bureau of Reclamation accuracy standards defined in Reclamation's Conservation and Efficiency Criteria Standards of 2008 or future amendments. ~~that meet the criteria of options 597.3(a) or 597.3(b) of this article.~~

May 11, 2011 Draft Regulation

Measurement Option (c) is removed.
