

Action Item: Water Storage Workshops Proposal

Background

Staff will present a proposal for two water storage workshops to be held by the Commission in early fall 2011. These workshops will help inform the Commission's work on public benefits. Potential workshop topics may include the following:

Workshop 1

- History and motivation for storage
- Four types of storage projects and their objectives and benefits, particularly in light of future uncertainties
- Federal, State and regional storage projects

Workshop 2

- Panel on System Reoperation
- Panel on Groundwater Storage and Conjunctive Water Management
- Panel on Surface Storage (federal, state and regional)
- Panel on Methods for Evaluating Public Benefits of Storage Projects
