AGENDA ITEM NO. 10
River Maid Land Co.

GEOTECHNICAL EXPLORATION
JANUARY 18, 2012

Background: The initial parcel selections were based on utilizing the most current available data, which included aerial photos, previously drilled holes and other pertinent data to assist in the proposed hole location.

Sites were selected with respect to the alignments identified in the Conceptual Engineering Report (CER) and after consultation with the members of the DHCCP team, which included staff from the environmental, real estate, engineering, and geotechnical disciplines. The criteria established by the team was to obtain relevant soil information for preliminary and final design of facilities and permitting requirements (US Army Corps of Engineers, Division of Safety of Dams, etc.), providing consistency with temporary entry permit language and landowner concerns, to implement and follow the Mitigated Negative Declaration language and required permits, and species to minimize overall impacts. A majority of the sites were selected to provide information and data primarily for the intakes, river crossings, Intermediate Forebay, and the Byron Tract Forebay. Additional sites were selected for the Pipeline/Tunnel Option.

After the Superior Court issued Order, DWR filed a renewal motion requesting two entry days to conduct surveys solely for the purpose of hole placement. Most of the landowners opposed this motion. The Superior Court declined to rule on the motion on the grounds that the matter was stayed pending DWR's appeal of the Order.

AGENDA ITEM NO.	**10.**
LAND OWNER	**River Maid Land Co.**
DWR PARCEL NO.	**DCAP-223**
APN	**32-0010-002-0000**
EXPLORATION NO.	**DCN2-CPT-003; 004; 005; 008; 009; 010; 011; 012; 013; 014; DCN2-DH-003; 004; 005; 008; 009; 010; 011; 012; 013; 014**
FACILITY	**Intake Structure**
METHOD	**CPT/DH**
DEPTH	**120**
REMARKS	**Intake #2 area; the area will consist of planned construction for setback levee, temporary levee traffic re-routing, the screened intake structure, sedimentation basin, the pumping station and other miscellaneous support facilities. The boring/CPT proposed in the intake area is to collect geologic data to help evaluate the feasibility of intake area construction methods in terms of depth of excavation, dewatering, and type of foundation supports as well as its associate impact to the local environment and community.**

DWR No.: DCAP-223
County: Sacramento
APN(s): 132-0010-002-0000

SUBJECT: Purchase of Property Rights

Our records indicate that you are the owner of certain property situated in Sacramento County, identified as Assessor's Parcel No. 132-0010-002-0000. The State of California Department of Water Resources (DWR), proposes to purchase property rights over this property, identified as DWR Parcel No. DCAP-223, to accomplish the goals of the Bay Delta Conservation Plan.

Section 7267.2 of the California Government Code and the California Relocation Assistance and Real Property Acquisition Guidelines require that each property owner from whom the State of California purchases real property, or an interest therein, be provided with a summary of the appraisal of the real property, or interest therein, as well as the following information:

1. You are entitled to receive full payment prior to vacating the real property rights being purchased, unless you have heretofore waived such entitlement. You are not required to pay recording fees, transfer taxes, or the pro rata portion of the real property taxes which are allocable to any period subsequent to the passage of title or possession.

2. The State will offer to purchase any remnant considered by the State to be an uneconomical unit which is owned by you and which is contiguous to the land being conveyed.

3. The rights to be acquired include a 96 square foot Permanent Non-Exclusive Easement containing six 4' x 4' areas, a 60,000 square foot Temporary Construction Easement, and a 48,750 square foot Temporary Access Easement.

4. The market value of the property rights being purchased is based upon a market valuation, which is summarized in the enclosed Valuation Summary Statement. As full just compensation for the property rights to be acquired, we offer you $[redacted], as shown on the enclosed Right of Way Contract.

   The State's offer:

   a. Represents the full amount of just compensation for the property rights to be purchased;

   b. Is not less than the approved valuation of the fair market value of the property as improved;

   c. Does not reflect any consideration of, or allowance for, any relocation assistance and payments or any other benefits to which you may be entitled; and

   d. Disregards any decrease or increase in the fair market value of the real property rights to be acquired prior to the date of valuation caused by the public improvement for which the property is to be acquired, or by the likelihood that the property would be acquired for such public improvement, other than that due to physical deterioration within the reasonable control of the owner or occupant.

5. In accordance with Section 1263.025 of the California Code of Civil Procedure you are entitled to seek a second opinion on the value of your property and to receive reimbursement of up to $5,000 to pay for reasonable appraisal costs. In order to be reimbursed, you must sign an Appraisal Costs Reimbursement Agreement and engage an appraiser licensed by the State of California with the Office of Real Estate Appraisers. The appraiser must be either a MAI designated appraiser or hold an equivalent designation recognized by the Appraisal Foundation. For further information on the requirements for reimbursement and to ensure that you are aware of proper procedures, please contact DWR prior to engaging an appraiser. The request for an Appraisal Costs Reimbursement Agreement may be submitted to the Department of Water Resources, Real Estate Branch, 1416 Ninth Street, Room 425, Sacramento, California 95814.

6. The owner of a business conducted on a property to be acquired, or conducted on the remaining property, which will be affected by the purchase of the required property, may be entitled to compensation for the loss of goodwill. Entitlement is contingent upon the Grantor's ability to prove such loss in accordance with the provisions of Sections 1263.510 and 1263.520 of the Code of Civil Procedure.

7. If you ultimately elect to reject the State's offer for your property, you are entitled to have the amount of compensation determined by a court of law in accordance with the laws of the State of California.

Included as part of this package, you will find the following information relating to this proposed acquisition:

- Valuation Summary Statement
- Right of Way Contract
- Easement Deed
- Map of the Proposed Acquisition Area
- Comparable Data List
- Comparable Sales Map
- Payee Data Record

Please sign and date the Deed **exactly** as shown in the designated location and have your signature **notarized**. If needed, a Public Notary can be made available to notarize your signature. Also, sign and date **two** copies of the Right of Way Contract and complete Sections 2-5 of the Payee Data Record. The Payee Data Record is needed in order for the State to issue payment. Please return the signed Right of Way Contracts and the Payee Data Record along with the notarized Deed in the envelope provided. A fully executed copy of the Contract will be forwarded to you at a later date.

If you have any questions or need additional information, you may contact me directly by telephone at (916) 654-7560, toll free at (866) 688-3227, or by email at cdabney@water.ca.gov.

Sincerely,

Carolyn Dabney

PERMANENT NON-EXCLUSIVE EASEMENT
(TO THE STATE)

Project Bay Delta Conservation Plan

Parcel No. DCAP-223 (Units A, B, and C)

River Maid Land Company, a California Limited Partnership, GRANT to the STATE OF CALIFORNIA, its successors or assigns, hereinafter called STATE, an EASEMENT and right of way, upon, over, and across that real property in the County of Sacramento, State of California, identified in the records of the Department of Water Resources as:

DWR Parcel No.	Area	Estate
DCAP-223 (Unit A)	96 square feet	Permanent easement
DCAP-223 (Unit B)	60,000 square feet	Temporary easement
DCAP-223 (Unit C)	48,750 square feet +/-	Temporary easement

(In the event of any discrepancy between the above identification and the real property described herein, the real property described will control.)

DCAP-223

UNIT A

A permanent non-exclusive easement for drilling purposes, over, upon, under and through the following described parcel of land, being a portion described in that GRANT DEED recorded in Book 20090617, Page 835, in the office of the County Recorder of Sacramento, State of California, on June 17, 2009, and more particularly described as follows:

Six 4 foot by 4 foot locations as shown and delineated on attached Exhibit "A".

UNIT B

TOGETHER WITH temporary construction easements for the purpose of moving and/or maneuvering construction equipment and vehicles, the temporary storage of equipment, and materials necessary for drilling, together with the equipment used in the drilling of earthwork, the temporary storage of spoil or excavated material during the period of drilling and related construction work, and any other operations necessary and appurtenant to the drilling, over, through, and across the following described parcel of land shown on attached Exhibit "A".

UNIT C

TOGETHER WITH a 10 foot wide temporary access easement for the purpose of moving and/or maneuvering construction equipment and vehicles, during the period of drilling and related construction over and across an existing access and/or service road shown on attached Exhibit "A".

Temporary easements for access and construction shall terminate on October 31, 2013.

All works, structures and facilities remaining on said parcel of land after said termination date shall become the property of Owner and the State shall have no obligation to remove, operate, or maintain any works, structures, or facilities on said parcel of land.

Previous Contacts

Temporary Entry Permit (TEP) Phase

LETTERS (7)

- Initial mailing of TEP; follow-up letters, referral to AG letter (7/07/10, 8/12/10, 9/03/10, 9/10/10, 9/14/10, 1/26/11, and 2/02/11).

TELEPHONE CALLS (1)

- Spoke with property owner; preferred contact is by email. (9/26/10)

EMAILS (4)

- Follow-up email confirming authorization to negotiate with property owner's representative; follow-up emails addressing owner's questions. (9/13/10, 9/14/10, 1/31/11, and 2/01/11)

SITE VISITS (1)

- Conducted site visit for general observation and verification of land use. (10/07/10)

Recent Contacts

First Written Offer (FWO) Phase

- **FWO package included the following documents: Cover Letter, Valuation Summary Statement, Right of Way Contract, Easement Deed, Map of the Proposed Acquisition Area, Comparable Data List, Comparable Sales Map, and Payee Data Record**
- **Agent confirmed receipt of the FWO package.**

LETTERS (12)

- Notice to Appraise Letter, First Written Offer, follow-up letters, invitations to Commission meeting, Temporary Easement Alternative, Appraisal Cost Reimbursement Agreement, and Notices of Intent to Adopt Resolution of Necessity, Letter providing clarification regarding permanent easements and hazardous materials (5/23/11, 8/02/11, 8/22/11, 8/30/11, 9/06/11, 9/09/11, 9/13/11, 9/19/11, 9/27/11, 10/13/11, 10/25/11, and 12/27/11).

TELEPHONE CALLS (1)

- Conversation with property owner's representative. Representative requested GIS coordinates for proposed drilling locations; discussed temporary easement alternative. (9/12/11)

EMAILS (25)

- Several emails addressing the FWO and the reason for conducting drilling on the River Maid property; discussed concerns with farming operations and the possibility of moving proposed drill sites to areas of less impact; discussed temporary easement alternative and the independent appraisal; discussed California Water Commission meeting; discussed elimination of environmental lab testing; discussed legal description and staking of easements. (Various dates from August 4, 2011 through December 30, 2011)

Areas of Main Concern to Owner and DWR's Response

- Owner is concerned about DWR's request for a permanent easement and disagrees with the compensation offered.

  DWR offered the temporary easement alternative and discussed the option available to the owner to obtain an independent appraisal. The Appraisal Cost Reimbursement Agreement has been forwarded to the owner's representative.

- Owner has expressed concerns regarding the location of the proposed drill sites as well as impacts to agricultural operations.

  DWR has agreed to consider alternate locations for the proposed drill sites and has provided representative with GIS coordinates of the proposed drill sites. **Representative has not submitted any requests to relocate proposed drill sites.** DWR has also informed representative that DWR will work around owner's harvesting schedule.

- Owner has expressed concern regarding legal description and not being able to identify more precise locations of the permanent easements.

  DWR has offered to stake permanent easements and has tentatively scheduled staking for the week of January 9th.

Why Necessary to Initiate Eminent Domain Action

DWR has been unable to reach an agreement to acquire the necessary property rights through either negotiation or attempted negotiation. DWR desires to initiate eminent domain action to ensure that DWR meets its geotechnical schedule.

California Water Commission

Resolution No. 2011-14

RESOLUTION OF NECESSITY

A Resolution Determining that the Public Interest and Necessity Require the Acquisition of DWR Parcel No. DCAP-223, a portion of Sacramento County Assessor's Parcel No. 132-0010-002-0000 for the Engineering Geotechnical Project Necessary for Developing Recommendations for the Bay Delta Conservation Plan, a Public Use.

WHEREAS, pursuant to California Water Code Sections 250 and 11580, the Department of Water Resources ("DWR" or "Department") has the authority to acquire by eminent domain, in the name of the people of the State of California, any property necessary for state water and dam purposes;

WHEREAS, DWR may commence an eminent domain lawsuit only if the California Water Commission has adopted a resolution of public necessity;

WHEREAS, in order to adopt a resolution of necessity, the California Water Commission must find: (1) that the project for which the property is to be acquired is necessary, and in the public interest; (2) that the property is necessary for the public project; (3) that the project is located in such a manner as to offer the greatest public benefit with the least private detriment; and (4) that an offer to purchase the property required by Government Code Section 7267.2 has been made to the owner of record;

WHEREAS, DWR has prepared an Initial Study and Mitigated Negative Declaration for Engineering Geotechnical Studies for the Bay Delta Conservation Plan and/or Preliminary Engineering Studies for the Delta Habitat Conservation and Conveyance Program (MND) and filed a Notice of Determination (NOD) on September 23, 2010 (SCH No. 2010062041) (collectively referred to hereafter as "CEQA Documents"). The Project Description, taken from the MND, is as follows:

> The Department of Water Resources (DWR) plans to do further geotechnical information gathering in the Delta. The work includes overwater and land geotechnical borings, cone penetration tests (CPT) and small test pits in order to investigate soils in the Sacramento-San Joaquin Delta between 2010 and 2012. This testing is necessary because of the lack of geotechnical data available to the Department of Water Resources in the relevant area for evaluation possible conservations measured in the Delta. The Department of Water Resources is tasked with providing information for the Bay Delta Conservation Plan for developing conveyance alternatives and the development of the broader goals for Delta improvements addressed by the Delta Stewardship Council for its Delta Plan. Work will continue under this process to gather geotechnical data on proposed conveyance alternatives, and the additional geotechnical exploration

proposed in this project will aid the Department of Water Resources in meeting its statutory responsibilities with respect to evaluating the feasibility of the proposed conveyance alternatives.

The Department of Water Resources' geotechnical staff and/or its consultants will investigate the engineering properties of the soils in the Delta along various alignment options, including auxiliary structures, as well as the proposed intakes and the proposed forebays for all options. The purpose of the investigation is to gather necessary geotechnical information to support the preparation of a draft Environmental Impact Report/Environmental Impact Statement (EIR/EIS) for the proposed Bay Delta Conservation Plan and/or for preliminary engineering studies for the Delta Habitat Conservation and Conveyance Program. The Department of Water Resources requires Delta soils and groundwater information for conceptual design and construction costs of conveyance facilities and to identify possible constraints and feasibility in developing conveyance alternatives.

WHEREAS, certain real property located within Sacramento County, California, a legal description of which is a part of the attached Deed and incorporated herein by this reference ("the Parcel"), is necessary for conducting Engineering Geotechnical Studies to support environmental studies, feasibility studies and preliminary engineering for making a recommendation for the Bay Delta Conservation Plan ("the Plan");

WHEREAS, the Department of Water Resources needs to conduct cone penetration testing, core drilling and test pits as described in the CEQA Documents to study the best feasible alternative for the alternative water conveyance project;

WHEREAS, DWR has considered the need to acquire Permanent and Temporary Easements ("the Easements") for purpose of conducting geotechnical activities;

WHEREAS, DWR has been unable to negotiate the voluntary acquisition of the Easements;

WHEREAS, the California Water Commission has given notice to the Parcel's owner as required by California law;

WHEREAS, a hearing has been held in the manner provided by law, and the persons whose property is to be acquired have been given a reasonable opportunity to appear and be heard before the California Water Commission on the following issues:

a. whether the public interest and necessity require the project for engineering geotechnical studies, as described above;

b. whether the Project and the acquisition of the Easements are planned and located in the manner that will be most compatible with the greatest public good and least private injury;

c. whether the Easements to be acquired are necessary for the Project;

d. whether the written offer required by law has been made to the owner of record; and

e. other matters concerning the authority of DWR to engage in such a project or its right to take.

NOW THEREFORE, BE IT RESOLVED BY THE CALIFORNIA WATER COMMISSION AS FOLLOWS:

1. The Commission has reviewed and considered DWR's CEQA Documents, and hereby:
    a. Adopts the Mitigated Negative Declaration for Engineering Geotechnical Studies for the Bay Delta Conservation Plan and/or Preliminary Engineering Studies for the Delta Habitat Conservation and Conveyance Program;
    b. Adopts DWR's mitigation and conservation measures and best management practices;
    c. Adopts DWR's mitigation and monitoring plan;
    d. Adopts the Department of Water Resources' Survey Protocol for Property to be Accessed as Part of the Engineering Geotechnical Studies for the Bay Delta Conservation Plan and/or Preliminary Engineering Studies for the Delta Habitat Conservation and Conveyance Program;
    e. Adopts the Delta Habitat Conservation and Conveyance Program Steps in Drilling and Soil Logging; and
    f. Determines that the Project would not have any significant environmental effects.

2. The Project for Engineering Geotechnical Studies is authorized pursuant to the Central Valley Project Act and the Burns-Porter Act.

3. DWR has demonstrated that is has sufficient funds available for the Project for Engineering Geotechnical Studies.

4. The public interest and necessity require the Project for Engineering Geotechnical Studies, including the acquisition of the Permanent and Temporary Easements described in the attached Deed as part of the Project.

    The Project for Engineering Geotechnical Studies is planned and located in the manner that will be most compatible with the greatest public good and least private injury.

5. The Easements described in the attached Deed are necessary for the Project.

6. The offer required by Section 7267.2 of the Government Code has been made to the owner(s) of record.

7. DWR has complied with the provisions of the California Environmental Quality Act regarding environmental review of the Project.

8. DWR is hereby authorized and empowered to acquire the Permanent and Temporary Easements through the power of eminent domain, including obtaining an order for prejudgment possession.

9. Commission staff shall have a CEQA Notice of Determination filed with the Office of Planning and Research State Clearing House.
