	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Ap	May	Jun	Total
Monthly Farm-Gate Deliveries													

	Jul-Aug	Sep-Oct	Nov-Dec	Jan-Feb	Mar-Apr	May-Jun	Total
Bimonthly Farm-Gate Deliveries							

Best Professional Practices³ used: _____

4. Explanations and Comments: *(if Best Professional Practices are not locally cost effective provide explanation below):*

Disclaimer: Agricultural water supplier's total water use will always be different from Farm-Gate deliveries since measurement at these points do not account for other water management practices such as groundwater recharge/conjunctive use, conveyance losses, water transfers, water delivered for environmental purposes, reuse, wheeling to other agencies, urban use, recreational uses, rainfall, and spills entering or leaving the agency's service area, etc. Farm-gate delivery information should not be used to quantify agricultural water use efficiency pursuant to Section 10608.64. Water Agency may provide additional information and clarifications below:

1. "Farm-gate" means the point at which water is delivered from the agricultural water supplier's distribution system to each of its customers (AB 1404, Sec. 531(f)) or as specified in the Agricultural Water Measurement Regulation (Title 23, Division 2, Chapter 5.1, Article 2 of the CCR)
 2. "Aggregated farm-gate delivery data" means information reflecting the total volume of water an agricultural water supplier provides to its customers and is calculated by totaling its deliveries to customers. (AB 1404, Sec. 531(a))
