

***Report on A Framework for Regulatory Transition: Accommodating Projected Climatic Shifts at the Operational Level***

**Background**

Mr. Robert Shibatani, CEO and Principal Hydrologist of The Shibitani Group, Inc., provided the Commission with his new report, *A Framework for Regulatory Transition: Accommodating Projected Climatic Shifts at the Operational Level*. At this meeting, he will provide a brief summary of his work.

The report describes past assumptions about California's hydrology, as well as changes and challenges that climate change will bring. Mr. Shibatani's report includes recommendations for addressing these challenges and updating California's regulatory framework for water management to incorporate climatic shifts.
