				<p>Adoption: May 15, 2013</p>	<p>To OAL: May 20, 2013</p>

Subject:
Regulations for Control of Encroachments within the State Water Resources Development System Right-of-Way and Issuance of Encroachment Permits
 The Division of Operations & Maintenance will submit regulations to provide guidance and procedures for use of the Department's right-of-way along the State Water Resources Development System, otherwise known as the State Water Project, or SWP, and for submittal of an application for an Encroachment Permit. The regulations will implement SB 543 and the corresponding Water Code section 12899, *et seq.* SB 543, enacted in 2005, added section 12899, which authorized the Department to issue encroachment permits under specified conditions and adopt regulations to allow for encroachment permits to be issued while protecting the access, operations, maintenance and control of the SWP. The statute also allows, and the regulations will implement, the conditions under which the Department may seek removal of unauthorized encroachments if the Department determines that the encroachment will interfere with the Department's rights with regard to access, inspection, repair, or the operation and maintenance of the SWP facilities.

CCR Title & Sections Affected:
 Title 23, Division 2, add Chapter 6, Encroachments, with the addition of Articles 1 through 11 and corresponding sections and subsections, from 600-635.

Statutes Being Implemented:
 SB 543, Statute of 2005, Water Code Sections 12899.1 through 12899.11.

Responsible Agency Unit:
 Department of Water Resources

Contact Person & Phone Number:
 James Openshaw or Leroy Ellinghouse
 (916) 574-2226 (916) 653-7168

Projected Dates:			
Notice: March 15, 2013	Hearing: April 17, 2013	Adoption: May 15, 2013	To OAL: June 20, 2013
