

Review of DWR Regulation Calendar for 2013

Background

Government Code section 11017.6 requires every State agency responsible for implementing regulations to prepare a rulemaking calendar each year. The calendar must be (1) prepared in accordance with the format specified by the Office of Administrative Law (OAL), (2) approved by the head of the department or, if the rulemaking agency is an entity other than a department, by the officer, board, commission, or other entity which has been delegated the authority to adopt, amend, or repeal regulations, and (3) published in the California Regulatory Notice Register (Notice Register). (Gov. Code, § 11017.6.)

OAL compiles all of the individual agency rulemaking calendars into one master calendar for publication, distribution, and posting on their website.

At this time, DWR plans to consider two regulation packages in 2013: Agricultural Water Measurement (revision) and State Water Project Encroachment regulations.
