

# **Aggregated Farm-Gate Delivery Reporting Format**

**Draft Proposed Changes  
CA Water Commission  
February 20, 2013**

# Reasons for Changes

- Input from stakeholders:
  - Calendar year format easier to use
  - Fiscal year format confusing; short turnaround time
  - Calendar year report matches State Water Board Diversion reporting requirements

**4. Explanations, Comments and Best Professional Practices<sup>3</sup>:**

**Note:** An agricultural water supplier's total water use may be different from Aggregated Farm-Gate deliveries because measurement at these points may not account for other practices (such as groundwater recharge/conjunctive use, water transfers, wheeling to other agencies, urban use, etc).

1. "Farm-gate" means the point at which water is delivered from the agricultural water supplier's distribution system to each of its individual customers as specified in the Agricultural Water Measurement Regulation (Title 23, Division 2, Chapter 5.1, Article 2 of the CCR).

2. "Aggregated farm-gate delivery data" means information reflecting the total volume of water an agricultural water supplier provides to its customers and is calculated by totaling its deliveries to customers.

3. "Best Professional Practices" is defined in Title 23, Division 2, Chapter 5.1, Article 2 of the CCR, Section 597.2.
