

**Action Item: Approval of 2014 of the State Water Project**

**Background**

The Commission is responsible for the completion of an annual review of the construction and operation of the State Water Project, and reporting its findings to the Director of the Department of Water Resources and to the Legislature, with any recommendations it may have (WC §165).

The draft 2014 Annual Review of the Construction and Operation of the State Water Project includes updated information on projects under construction and in the planning and design stages. The report also documents site visits taken by Water Commission members in 2014, as well as information, presentations, and actions by the Commission regarding the State Water Project facilities and operations.

If approved by the Commission, the Annual Review will be finalized and sent to the Department of Water Resources and the State Legislature, and posted on the Commission's website.
