

Discussion of Rules of Contact

Background

At its February 18 meeting, the Commission discussed the need for a mechanism through which members of the Commission would report meetings they have with potential stakeholders in the Water Storage Investment Program. While a disclosure policy is not mandated, it would support the openness and transparency of Commission operations. Staff Counsel has developed a draft disclosure form. At this meeting, members of the Commission will have the opportunity to discuss the draft form and the Commission's protocol for disclosing meetings.
