

Review of WSIP Draft Regulations

Background

At the Commission's October 2015 meeting, staff presented Water Storage Investment Program (WSIP) working draft regulations for discussion by the Commission. Since that meeting, staff has incorporated the Commission's feedback as well as public comments made at the October Commission meeting and in written comments. Jenny Marr, Commission Supervising Engineer and WSIP Project Manager, will present an updated version of the WSIP draft regulations, highlight changes from the previous version, and request feedback from the Commission.
