Thank you for your letter dated July 27, 2015 regarding existing mitigation and compliance requirements for the Water Storage Investment Program (WSIP) (Proposition 1). Your letter has been posted online and shared with all members of the California Water Commission. We appreciate your comments and will take them into consideration as we continue to develop draft regulations. Robust engagement by stakeholders is essential to the development of the WSIP, and we hope to continue discussions with you on this and many other important issues throughout the process.

Thank you,
