

Action Item: Approval of the 2015 State Water Project Review

Background

The California Water Commission is required to conduct an annual review of the construction and operation of the State Water Project and to report its findings and recommendations to the Director of the Department of Water Resources (DWR) and the State Legislature (WC §165).

The draft 2015 Annual Review of the Construction and Operation of the State Water Project includes information that was presented to the Commission regarding State Water Project facilities and operations. It also includes information about site visits taken by Commission members in 2015 and updated information on current and planned future construction projects.

If approved by the Commission, the Annual Review will be finalized, posted to the Commission's website, and sent to DWR and the State Legislature.
