

Review of 2016 Workplan

Background

Commission staff will present an overview of planned Commission activities for 2016 including Sustainable Groundwater Management Act implementation, Water Storage Investment Program rulemakings, other statutory duties, and public communication and engagement. The Commission's responsibilities are defined in California Water Code, as well as sections of Government Code and Code of Civil Procedures. This workplan is intended to address the Commission's multiple statutory duties while meeting strict deadlines. Planned activities are subject to change as they are implemented. This is an informational item.
