

Update on Program and Administrative Activities for the Water Storage Investment Program (WSIP) and Briefing on Revised Draft WSIP Quantification Regulations and Commission Direction

Background

In order to implement Chapter 8 of Proposition 1, the Commission is developing regulations for the quantification and management of the public benefits of water storage projects. The draft Quantification Regulations were released for a 45-day public comment period from January 29, 2016 to March 14, 2016. In response to comments received during the public comment period, input from the Commission's partner agencies, and Commission feedback, Commission staff developed proposed modifications to the draft regulations.

At this meeting, Commission staff will update the Commission on staff work on the WSIP and provide an overview of proposed changes to the WSIP Quantification Regulations.
