

Water Storage Investment Program (WSIP) Update

Background

The California Water Commission is conducting the WSIP to invest \$2.7 billion in the public benefits of water storage projects, per the requirements of Proposition 1 (the Water Quality, Supply, and Infrastructure Improvement Act of 2014), Chapter 8. The Commission accepted applications for WSIP funding from March to August 2017. Currently, Commission staff is reviewing the WSIP applications.

Staff will update the Commission on activities related to the WSIP.
